Partnering for Progress April 25 - 27, 2018

## EPA Labels Live!

### Pesticide Labels from the Lab to Your Neighborhood

How does a pesticide product get from the lab to your yard and community? Via the EPA stamped label!

Join us for a special session designed specifically for EPA staff and leave with a new understanding of how pesticides are developed and used in the field.

This year's event features new content on product formulation varieties, registrant label workflows, business reasons for supplemental distribution, stewardship in consumer product packaging, and specialty use sites.

No RSVP is necessary to attend.

# April 26, 2018

1:15 p.m. – 2:45 p.m.

Renaissance Arlington Capital View  
2800 S Potomac Ave, Arlington, VA 22202
